

The Touch

Ashley Monroe

Come lay down beside me
Let the sunlight kiss your eyes
There's a fire deep down inside me
Cannot be denied

Hold on to me this morning
Let time stand still
Come be my baby
Promise me you always will

I think I need to tell you
I've got staying on my mind
I mean the kind of staying
That takes a long long time

Kiss me like you mean it
Honey we don't have to rush
As long as we're together
It's more than enough

Me and my heart
Been through so much
You came along
Now I know love

Baby believe me
Falling for you is easy
Oh you've got
You've got
The touch

Me and my heart
Been through so much
You came along
Now I know love

Baby believe me
Falling for you is easy
Oh you've got
You've got
The touch
