

# Til It Breaks

Ashley Monroe

Is your whole world right-side up  
And you're upside down  
Wouldn't know it from the outside in  
But you're inside out

You're in a crowd but you're all alone  
Come on baby, lose control  
A heart can't breathe when it's turned to stone

Let it melt away  
Let it melt away  
Yeah, it might get bad before it's better  
Sometimes it doesn't come together  
Til it breaks

They say when one thing dies  
Another comes alive  
And to get to the dawn of day  
You've gotta cry through the night

I try to reach but you built a wall  
Come on baby, let it fall  
Sometimes you need a hand to hold to help you come apart

So  
Let it melt away  
Let it melt away  
Yeah, it might get bad before it's better  
Sometimes it doesn't come together  
Til it breaks

(Let it melt away)  
Is your whole world right-side up  
And you're upside down  
(Let it melt away)  
Wouldn't know it from the outside in  
But you're inside out

Yeah, it might get bad before it's better  
Sometimes it doesn't come together  
Til it breaks

(Let it melt away)  
Til it breaks  
(Let it melt away)  
Til it breaks  
Yeah, it might get bad before it's better  
Sometimes it doesn't come together  
Til it breaks
