

Ride or Die

Ashley Roberts

Ride or die
Ride or die

You tried to shoot me down
Leave my heart on the floor
Ten paces out
I'm the first one to drop

Bang bang
You gave me nothing
Then you turned tracks on me
Outlawed
Got you hunted
I won't let you go for free
You're blood in the water
Poisoning the stream
But I'll still be standing when the bullet comes for me

You, what a beautiful disaster
You, what a beautiful disaster
A ride or die
A ride or die
(A ride or die, ride or die)
A ride or die
A ride or die

It's a love-go-round
And we're back here for more
You left our trust in the dust on the floor

Bang bang
Now you're running
From the life you had with me
Out cold in the night
Still I chase you in my dreams
You're blood in the water

Poisoning the stream
But I'll still be standing when the bullet comes for me

You, what a beautiful disaster
You, what a beautiful disaster
A ride or die
A ride or die
(A ride or die, ride or die)
A ride or die
A ride or die
You tried to shoot me down
Leave my heart on the floor
Ten paces out
I'm the first one to drop

You tried to shoot me down
Leave my heart on the floor
Ten paces out
I'm the first one to drop

You, what a beautiful disaster
You, what a beautiful disaster
A ride or die
A ride or die
A ride or die
A ride or die

The walls are caving in
Where we built this happy home
And you left me here alone
The walls are caving in
But we built this happy home
And you left me here alone
