

Wild Heart

Ashley Roberts

Love, front, no turn and back,
scared of what'll happen if I stay,
Same shit on a different day,
million reasons left to run away,
Face to face covered in lies,
Trying to deny the truth,
Side by side, covered in lies,
Wondering why I'm lying next to you

Wild heart... blown apart,
left you on my bedroom floor,
Wild heart... and tonight,
no mess up and you don't know the score

No good caves in my head,
wondering when this war will ever end,
but i won't loose,
I'm better than who's broken pieces... nothing left to mend,
Face to face covered in lies,
Trying to deny the truth,
Woah, side by side, covered in lies,
Wondering why I'm lying next to you

Wild heart... blown apart,
left you on my bedroom floor,
Wild heart... and tonight,
no mess up and you don't know the score

Can't tame a wild heart [x3]
I'm trying to save you,
Can't tame a wild heart [x2]
I gotta let it on free

No matter where i run,
no matter where i go,
i end up all alone,
no matter where i go,
no matter where i run,
Who could claim my....

Wild heart... blown apart,
left you on my bedroom floor,
Wild heart... and tonight,
no mess up and you don't know the score

Can't tame a wild heart [x3]
I'm trying to save you,
Can't tame a wild heart [x2]
I gotta let it on free

Wild heart... blown apart,
left you on my bedroom floor,
Wild heart... and tonight,
no mess up and you don't know the score

Wild heart [x3]
