

Woman Up

Ashley Roberts

When was the last time, you looked at yourself in the mirror?
And saw what I see, beauty running so deep, couldn't be more clearer

You got your own mind
Your own money and your own ride
It's a beautiful thing when whatever you need
You can get it on your own time

We got to celebrate
'Cause this is our world
Don't let them see you break
Better woman up

Can you do what you gotta do?
And you're making all your own rules
This is for my girls who
Woman up, woman up

Don't matter what you've been through
Gotta make them respect you
This is for my girls who
Woman Up, woman up

You are a fighter warrior, survivor
All my ladies listen up, you better woman up

You don't gotta say yes, no
Just because you're single
If it's wrong, it ain't right
tell him don't waste your time
But the diamonds and Chanel call

And right now you might be alone
But you won't be for long
You are strong, independent
And that's how you get what, what you want

Can you do what you gotta do?
And you're making all your own rules
This is for my girls who
woman up, woman up

Don't matter what you've been through
Gotta make them respect you
This is for my girls who
Woman up, woman up

You are a fighter
Warrior, survivor
All my ladies, listen up
you better woman up
