

# One Tractor Mind

Ashley Ryan

He's been workin them fields since the sun come up  
Chasing that hay tryin' to get it all done  
Smoke rollin' out the back na he ain't takin it slow  
Cause when I start wavin from our front porch swing  
In my little sun dress and I give him a wink  
He starts ziggin and zaggin, messin' up them rows

Might be a little early for quittin' time  
But he knows what's waitin' on him when he gets inside  
I know, he knows, I'm only thinking one thing (yeah)  
Somethin' 'bout his diesel's got me comin' undone  
I'm always asking him for a ride  
I got a one tractor mind (yeah)

I don't like it when he leaves me all by myself  
But I know them fields ain't gonna plow themselves  
If he keeps lookin' my way, no they ain't getting' done today

Might be a little early for quittin' time  
But he knows what's waitin' on him when he gets inside  
I know, he knows, I'm only thinking one thing (yeah)  
Somethin' 'bout his diesel's got me comin' undone  
I'm always asking him for a ride  
I got a one tractor mind (yeah)

All this churnin' and a chuggin'  
Plantin' and a' pluggin' along sure turns me on

Might be a little early for quittin' time  
But he knows what's waitin' on him when he gets inside  
I know, he knows, I'm only thinking one thing (yeah)  
Somethin' 'bout his diesel's got me comin' undone  
I'm always asking him for a ride  
I got a one tractor mind (yeah)  
I got a one tractor mind
