444

Ashley Sienna

444 means the angels are watching
But I wish that they did a little bit more talking
I need some advice on this boy I'm loving
But angels don't love him
They hate that I love him
I see it, all the signs saying I should leave him
I believe it, I'm begging on my knees
Angels, save me, please

Every time I see 444
It means no more, I know for sure
The angels tryna speak
They're warning me
He's not for me, he needs to leave
Every time I see 444
It means no more, I know for sure
The angels tryna speak
They're warning me
He's not for me, he needs to leave

He needs to leave
He needs to leave

I melt in his arms when he kisses me slowly
I wish the angels told me loving him is holy
He holds me, holy
I feel like I'm in heaven
I think I need confession
Oh, angels
Sorry didn't mean any betrayal
I need healing
Can you control my feelings?

Every time I see 444
It means no more, I know for sure
The angels tryna speak
They're warning me
He's not for me, he needs to leave
Every time I see 444
It means no more, I know for sure
The angels tryna speak
They're warning me
He's not for me, he needs to leave

He needs to leave
He needs to leave

444 you saved my life
Giving me all this real advice
I see you everywhere until I die
I really got these angels by my side
444 you saved my life
Giving me all this real advice
I see you everywhere until I die
I really got these angels by my side

Every time I see 444

It means no more, I know for sure
The angels tryna speak
They're warning me
He's not for me, he needs to leave

Every time I see 444
It means no more, I know for sure
The angels tryna speak
They're warning me
He's not for me, he needs to leave
Every time I see 444
It means no more, I know for sure
The angels tryna speak
They're warning me
He's not for me, he needs to leave
Every time I see 444
It means no more, I know for sure
The angels tryna speak
They're warning me
He's not for me, he needs to leave

He needs to leave
He needs to leave
