Ashley Sienna

Boy I never know what to do when I see your face  
All I see is you and everything around me gets erased

My friends are always telling me go talk to him it's not scary  
But I never know what to do when I walk right up to you  
I can talk to all these other guys  
But for some reason I'm never fine with you

My mind goes blank  
I never know what to do  
I'm looking just like a fool  
I wish that could just play it cool, oh  
Blank  
I promise that I'm not always like this  
I just need a little bit more time  
Stay with me, I promise that we'll be just fine, oh  
Blank ohh oh, ohh oh  
My mind goes blank, oh

I thought I'd get used to this by now and be alright  
Guess I wasn't right  
Instead I think about everything that I could've said  
While I lay in bed

I can plan it all out in my head  
But when I'm with you I just turn all red  
How do I look in those eyes  
When they give me butterflies  
I pretend that you're just someone else  
It never works I still need help  
It's true

My mind goes blank  
I never know what to do  
I'm looking just like a fool  
I wish that could just play it cool, oh  
Blank  
I promise that I'm not always like this  
I just need a little bit more time  
Stay with me, I promise that we'll be just fine, oh  
Blank ohh oh, ohh oh  
My mind goes blank, oh  
Ohh oh, ohh oh  
My mind goes blank, oh

I wish that I could be brave  
And not afraid  
These nerves are kinda getting in my way

My mind goes blank  
I never know what to do  
I'm looking just like a fool  
I wish that could just play it cool, oh  
Blank  
I promise that I'm not always like this  
I just need a little bit more time  
Stay with me, I promise that we'll be just fine oh
