

# When I'm Single

Ashley Sienna

Not too long ago  
All my wishes and my hopes  
Were to have someone who loves me  
Someone I can hold  
I wasted all my time  
Wishing you were mine  
When I could've full time been working on that grind

But that went out the door  
It's not me anymore  
They ask me why I'm single  
And honestly it's simple

When I'm single, I'm free  
And nobody can hurt me  
I don't gotta worry  
When I'm single, I'm free  
Can talk to anybody  
Nobody can stop me  
Why would I want to  
Have my heart broken in two  
When I can love me better  
I will keep it safe forever  
I'm single, I'm free  
And I'm only in love with me

I love to have control  
And have time for my goals  
You might think I'm alone  
But I love going solo  
I can make myself feel better  
No I don't need your sweater  
I keep warm in cold weather  
I write my own love letter

Yeah I don't need your love  
I love myself enough  
They ask me why I'm single  
And honestly it's simple

When I'm single, I'm free  
And nobody can hurt me  
I don't gotta worry  
When I'm single, I'm free  
Can talk to anybody  
Nobody can stop me  
Why would I want to  
Have my heart broken in two  
When I can love me better  
I will keep it safe forever  
I'm single, I'm free  
And I'm only in love with me

Yeah no one knows me  
More than me  
I know me better than anybody  
I love me

That's all I need  
I'm happy to be single, I'm not looking to mingle (No, no, no)

When I'm single, I'm free  
And nobody can hurt me  
I don't gotta worry  
When I'm single, I'm free  
Can talk to anybody  
Nobody can stop me  
Why would I want to  
Have my heart broken in two  
When I can love me better  
I will keep it safe forever  
I'm single, I'm free  
And I'm only in love with me  
When I'm single, I'm free  
And nobody can hurt me  
I don't gotta worry  
When I'm single, I'm free  
Can talk to anybody  
Nobody can stop me  
Why would I want to  
Have my heart broken in two  
When I can love me better  
I will keep it safe forever  
I'm single, I'm free  
And I'm only in love with me
