

My Girl And Me

Ashley Tisdale

When the signs of the times
Is the times when are extremely tough
When you look at the world
And the world that you see is rough
When you feel like a long lost pup
And you need some cheering up
Sit back, relax, and watch us do our stuff

We're gonna sit and shake your hand
That's how it's starts (Oh whoa, oh whoa)
We're gonna nose our nosy way onto your hearts (Oh whoa)
We'll sing and bark in two part harmony

Me and my girl
My girl and me

We make the perfect pair
We've got that savoir-faire
And any bone you throw
We'll catch it in mid-air

We're gonna find a part to sink our teeth into (Oh whoa, oh whoa)
We're gonna jump through hoops to get a great review (Oh whoa)
We're next year's shoo-in Tony nominees
You're gonna love us that's our guarantee, yeah
We'll bow together on the count of three

Me and my girl
My girl and me

We make the perfect pair
We've got that savoir-faire

Me and my girl
Me and my girl
Me and my girl
My girl and me
