

# Switch

Ashley Tisdale

Switch it, switch it

You're out of this world, I'm sure of it  
A crazy intuition  
You're off and on, you're here and gone, come back  
A curious condition

And then you switch right over  
It's weird, yeah I know but just can't get a hold of myself

Hey so strange, you switched it in front of me  
Hey you've changed, not like you used to be  
'Cause you get in my head and hold my heart  
When I'm here, you're there, we're worlds apart  
So reverse your words get to the start and switch back to my world

Hey I'm just talking like a machine  
Hey I'm stuck on every word in between  
'Cause you get in my head and hold my heart  
When I'm here, you're there, we're worlds apart  
So reverse your words get to the start and switch back to my world

You're out of this world, I'm sure of it  
A little more than different  
And you keep blocking, blocking, turn your back  
It's you that I am missing

And then you switch right over  
It's weird, yeah I know but just can't get a hold of myself

Hey so strange, you switched it in front of me  
Hey you've changed, not like you used to be  
'Cause you get in my head and hold my heart  
When I'm here, you're there, we're worlds apart  
So reverse your words get to the start and switch back to my world

Hey I'm just talking like a machine  
Hey I'm stuck on every word in between  
'Cause you get in my head and hold my heart  
When I'm here, you're there, we're worlds apart  
So reverse your words get to the start and switch back to my world

If I knew where you were, how can I find you?  
Staring at the stars falling behind you  
Across the universe, hope you'll be back soon  
I got a feeling our planets could meet, I'll rearrange it

Hey so strange, you switched it in front of me  
Hey you've changed, not like you used to be  
'Cause you get in my head and hold my heart  
When I'm here, you're there, we're worlds apart  
So reverse your words get to the start and switch back to my world

Hey I'm just talking like a machine  
Hey I'm stuck on every word in between  
'Cause you get in my head and hold my heart  
When I'm here, you're there, we're worlds apart

So reverse your words get to the start and switch back to my world

Open your heart, yeah we're back to the start  
Open your heart, yeah get back to the start  
Open your heart, yeah we're back to the start  
Open your heart, yeah get back to the start  
Open your heart, yeah we're back to the start  
Open your heart, yeah get back to the start
