

Want It All

Ashnikko

Let my body melt, lick it, mademoiselle
That's the most heavenly thing that I ever felt
Kinda like touchin' God, infinity beyond
Mecha on mecha like Evangelion

Want it all, want it all
Want it all, want it all
Want it all, want it all
Want it all, want it all

Fly into the sun, acid on my tongue
Daffodils and daisies, fol-ol-ollow me into my garden
Got me skippin', singin', "Fa-la-la-la-la-la-la-la"
Fa-la-la-la-la-la-la-la-la

Nightshade deadly, we call her Belladonna
Life or death, ooh, I love the melodrama
On her hundredth life and she can't escape her karma
Take flight, take flight, take flight, take flight

Ooh, run into me
Ah, run into me
Run into me, I wanna feel everything
Run into me, I wanna scream, I wanna bleed
Funny I can't make my mind up
Eyes on you like I'm a spider
Want it all like I'm a miser
Pull it, twist it, I ignite it
Run into me, baby
Run into me, baby
Run into me, baby
Run into me, baby

Want it all, want it all (Bitch, I'm feelin' lucky)
Want it all, want it all (I got my paws in all the honey)
Want it all, want it all (Crash into me, dummy)
Want it all, want it all
Want it all, want it all (Bitch, I'm feelin' lucky)
Want it all, want it all (I got my paws in all the honey)
Want it all, want it all (Crash into me, dummy)
Want it all, want it all (You love me)
