

WEEDKILLER

Ashnikko

Twiddling my thumbs
Yeah I been patient
Lobotomize a bitch
Yeah, their eyes vacant
There's nowhere to run
In the simulation
I'm having fun
It's a celebration
Ahh, ahh
Detonation
Peace, love
Meditation
Take drugs
Eyes dilating
I go Liam Neeson
In the movie "Taken"

I've been iced in hibernation
My roots in the pavement
No stimulation
I'm gonna photosynthesize

We always knew
It would come to this
That I would be the one
To eliminate you
Weedkiller
Running with scissors
I made knives outta broken ribs
I will be the one to eliminate you
Weedkiller
Weedkiller

Junkyard, put you in a car crusher
Trump card, bitch, I'm a ballbuster
Predator going for the jugular
Rip it out, tie it in a knot ya ya
Pray to god
Say goodbye
Make amends 'cause its time
Metal death with my scythe
Titanium spine
I ignite

I've been iced in hibernation
My roots in the pavement
No stimulation
I'm gonna photosynthesize

We always knew
It would come to this
That I would be the one
To eliminate you
Weedkiller
Running with scissors
I made knives outta broken ribs
I will be the one to eliminate you

Weedkiller
Weedkiller

Photosynthesize
You're no friend of mine
Cryofreeze and crystallize, woah
Cut the power lines
Flora fantasize
Little weedkiller, now the lawn is mowed
I've been training for murder
I've been training for murder
Weedkiller
