

# Worms

Ashnikko

The world is burning, I got worms in my brains  
Gonna bleach my eyebrows, change my name  
The world is burning and I laugh at the blaze  
Gonna bleach my eyebrows, change my name  
Play my life like a video game  
I don't mind, I'm driving through flames  
And I'm riding through the desert with the sword on my back  
I'm in a what the fuck, Monster Truck, wanna go fast

Orange juice and toothpaste  
I roll around in blue paint  
Thinking of new ways  
That I can self-sabotage  
Oh, well, it's too late  
My host body mutates  
My head spins, my neck breaks  
I love a self-sabotage

Brand-new day, got a brand-new grin (Oh-oh)  
Got a colony of ants underneath my skin (Oh-oh)  
My bones decay, now I'm gelatin (Oh-oh)  
I swear I'm better, swear I'm better  
Miss parasite possessor

If nothing matters, then I'll be fine  
I keep my besties and big wheelies on my mind  
I watch it splatter, into the sky  
She's made of red-raspberry jelly and all American pie
