

For My Sun

Ashram

I want to give you summer in love,
I want to leave over my pain,
And we will dance all the night
Behind the stars and upon the moon.

And I'll wish your heart
And I'll kill the pain
In summer
And I'll see...

It was her, tomorrow's discovery
It was her, I depend from your heart today

I want to give you summer in love,
I want to leave over my pain,
And we will dance all the night
Behind the stars and upon the moon.

And I'll wish your heart
And I'll kill the pain
In summer
And I'll see...

It was her, tomorrow's discovery
It was her, I depend from your heart today

For my sun
