

# Breakup

Ashton Irwin

Lady, lady, lady, take me to the end  
You came here for pleasure not for play pretend  
I could be your lover, I could be your friend  
Be your favourite love now

Now we're drinkin' by the ocean  
The record keeps skippin'  
You say you got a lover  
But you say I'm not like him

Well in my imagination  
The heaven I'm buildin'  
You two came together  
But you don't leave here with him

Break up right now  
You should be with me now  
Break up right now  
You should be with me now

Let the power of seduction be your friend  
Sink your teeth into a night that never ends  
Can't forget, we're driving closer to the edge  
With every breath

Now the stars are getting closer  
The rubber is wearing thin  
I thought it would be clever  
To let the devil in

Now your hands are on my body  
The chain that I'm wearin'  
Is taking care of business  
Hanging in between our lips

Break up (Break up) right now (Right now)  
You should be with me now  
Break up (Break up) right now (Right now)  
You should be with me now

Ooh-ooh-ooh, ooh-ooh-ooh  
You should be with me now  
Ooh-ooh-ooh, ooh-ooh-ooh  
You should be with me now  
Ooh-ooh-ooh, ooh-ooh-ooh  
You should be with me now  
Ooh-ooh-ooh, ooh-ooh-ooh  
You should be with me now
