

Drive

Ashton Irwin

I know that you're hurting
I know you still care
I know his voicemails sound like a lullaby

I feel that you're hurting
I know it's not fair
I know his words still ring like bells in the back of your head

We could take a drive downtown to the pacific coast
We could work it all out, tell me where it hurts most
We could tie another knot between us and some hope

We could, we could
We could, we could

Just drive, just drive
Just drive tonight

Just drive, just drive
Just drive tonight

We could take a drive downtown to the pacific coast
We could work it all out, tell me where hurts most
We could tie another knot between us and some hope

We could, we could
We could, we could

Just drive, just drive
Just drive tonight

Just drive, just drive
Just drive tonight

I'm here for you
When your world is falling down
I'm here with you
When your world is falling down

Down!
Down!
Down!

Yeah, yeah, yeah, yeah, yeah!

The violent voices loud and deafening
Red lights they burn us out like kerosene
The futures not so clear, I'll help you see
There's so much more to life, than you and me

Just drive, just drive
Just drive tonight (Tonight, tonight, tonight)

Just drive, just drive
Just drive tonight (Tonight, tonight, tonight)

Just drive, just drive

Just drive tonight (Tonight, tonight, tonight)

Just drive, just drive

Just drive tonight (Tonight, tonight, tonight)

You and me

You and me

You and me

You and me
