

Sunshine

Ashton Irwin

I've been living my life
But it's not how it looks
I've been giving it time
But that's all that it took

So what now?

You've been feeding me lies
Now it's all that I know
I've been eating you up
How am I supposed to grow?

So what now?

Stop watching the news
You're something they use to
Scare you just like a bad dream
Wake up tomorrow
You'll cast a shadow on
Pavements that you're yet to see

See the sunshine
Just like the first time
See the sunshine
Just like the first time
Not just today
Not just tomorrow
But now till forever and ever
See the sunshine
See the sunshine

I've been living my life
In a tiny toolbox
Now I'm locked in the house
Like I live in Fort Knox

So what now?

Now I'm thinking
My life could be more than it's been
I should meet other people
And see what they mean

So what now?

All my misfortunes
All of my triumphs
All of my satellite dreams
Expensive perfumes
Ladies do not lose
Playing but not on the team

See the sunshine
Just like the first time
See the sunshine
Just like the first time
Not just today

Not just tomorrow
But now till forever and ever
See the sunshine
See the sunshine
