

The Pickin' Shed

Ashton Shepherd

Hey, hey now
Don't you wanna come down
bring your guitar
here we play music with our own sound
a lot of our friendship and music's been born and bred right here
in our backyard at the pickin' shed

I remember the first time I walked through the door
I felt at home though I'd never been in there before
the band was playing and I sang a few songs
I gotta admit I was hooked from then on

Hey, hey now
Don't you wanna come down
bring your guitar
here we play music with our own sound
a lot of our friendship and music's been born and bred right here
in our backyard at the pickin' shed

its the place we built for the music that we play
or you can shoot pool or you can throw darts any day
its like our own private bar thats open every night
there aint no closin' time
and no rules to go by

Hey, hey now
Don't you wanna come down
bring your guitar
here we play music with our own sound
a lot of our friendship and music's been born and bred right here
in our backyard at the pickin' shed

And there's never any pressure
You can just relax
And if you ever hang out here
I bet you're gonna come back

Hey, hey now
Don't you wanna come down
bring your guitar
here we play music with our own sound
a lot of our friendship and music's been born and bred right here
in our backyard at the pickin' shed

right here in our backyard
at the pickin' shed
