

# I Would Die For You

Asia

Girl, seeing it in your face  
In time, your eyes meet mine  
So fast, shooting off into space  
You turn my life, upside down

I, I would die for you  
I would die  
I, I would die for you  
I would die for you

And now, where do we go from here?  
Don't think twice, it's so clear  
This time, then it could be too late  
Let's go now, don't hesitate

I, I would die for you  
I would die  
I, I would die for you  
I would die for you

I, I would die for you  
I would die
