

# Judas

Asia

My life was never all plain sailing  
always so extreme  
I climbed the peaks or perished, failing  
You'd say I lived the dream

But then one day my global mercy  
I should have been so proud  
You need to know  
That was the worst thing  
You turned and laughed out loud

Why did you choose to stand behind me  
Somewhere I couldn't see  
Just when I couldn't feel it coming  
You put a knife in me

I never needed your assistance  
I always trusted you  
I didn't understand your distance  
You put a knife in me  
You put a knife in me

I'd love to know what does it feels like  
To be a Judas friend  
To be a brutal, traitor of the soul  
Murderous at the end

And now while I find it quite astounding  
You come to shake my hand  
You'll never see how much you hurt me  
You couldn't understand

Why did you choose to stand behind me  
Somewhere I couldn't see  
Just when I couldn't feel it coming  
You put a knife in me

I never needed your assistance  
I always trusted you  
I didn't understand your distance  
You put a knife in me  
(You took the life from me)  
You put a knife in me

Judas, Judas  
Judas, Judas  
You put a knife in me  
You put a knife in me

Why did you choose to stand behind me  
Somewhere I couldn't see  
Just when I couldn't feel it coming  
You put a knife in me

I never needed your assistance  
I always trusted you  
I didn't understand your distance

You put a knife in me  
You put a knife in me

Judas, Judas  
Judas, Judas  
You put a knife in me

Judas, Judas  
Judas, Judas  
Judas, Judas  
Judas, Judas...
