

## Light the Way

Asia

You give your innocence so easy  
All too soon you'll know  
Lose your fragile independence  
Then you're on your own

No matter what it is, be sure it can be fixed  
Letting go of yesterday  
Might - just might - light the way

I keep on searching ever more, for  
What I just can't see  
Now I look, and find the answer  
Right in front of me

No matter what it is, be sure it can be fixed  
Letting go of yesterday

Might - just might - light the way
