

Obsession

Asia

Can I feel your hair soft on wet skin
Deep inside I bleed from the blade within
Can I reach the burning, burning moon
Can I change this madness, lust consume
Breathing out and breathing in - begin

Suddenly I wake from a calling sweat
Blood red water on my head
Was I only dreaming the flesh so real
What would another good sin reveal

Breathing out and breathing in
I can't fight the drug within
Feel the first hit to the heart

You're my shot, your my obsession
Hear the voices say
I can't turn and walk away - yeah
You're my shot, your my obsession
Hear the voices

Oh - how I need to hold onto fire to win
Pumping through my veins love's adrenalin
Can you hear those voices

Breathing out and breathing in
I can't fight the drug within
Feel the first hit to the heart

You're my shot, your my obsession
Hear the voices say
I can't turn and walk away - yeah
You're my shot, your my obsession
Hear the voices say
