

DO BAD

Asiahn

I tried and I tried
To fight if this vibe I should leave you alone
But the other night
I'm afraid that your true colors had shown
I know you can see that
I got something on my mind
You're making this easy
Cuz all I can hear is your pride

We haven't been talking long enough
For you to stress me out
For me to have doubts
Who got the time?
Then you ain't even my girl
It's getting pretty late
It's time for you to skate

Cuz I can do bad bad
Bad all by myself, ooh
I can do bad bad bad
Bad all by myself

You lie and you lie
About shit you don't have to and I don't know why
Cuz we ain't exclusive
Did you forget your not mine
You think I can't see that
You got someone on your mind
You're making this easy
Cuz you're wasting my time

We haven't been talking long enough
For you to stress me out
For you to have doubts
Who got the time?
Then you ain't even my girl
It's getting pretty late
It's time for you to skate

Cuz I can do bad bad
Bad all by myself, ooh
I can do bad bad
Bad all by myself

See I could never be the one
To let you stand by
And play your little games
Their ain't a girl on this earth
Who'd have me so gone
To everyone play me out that way
See what you fail to understand
Is I don't have time to waste it on a lie
Time to cut the chit chat
Cuz I'm giving you back
You know where the streets at
And you're wasting my time

We haven't been talking long enough (talking long enough)
For you to stress me out
For you to have doubts
Who got the time?
Then you ain't even my girl (you ain't even my girl)
It's getting pretty late
It's time for you to skate

Cuz I can do bad bad
Bad all by myself, ooh
I can do bad bad
Bad all by myself
