

Noticed a difference in who you've become
I see you shining, you're perfect, you know
Someone's been giving you what you deserve
I had to brag, you're my girl and it shows

Have you ever had a love so good?
Better than you've ever known
Make you wanna be a better girl
That would be us
Just some real communication
I'll listen gently to your heart
Love, I give it to you freely
'Cause you got my trust

I'm just sayin'
You can blame me
For this love
I'm just sayin'
I'll take the blame here
For this love, yeah

Love how you walk in a room and take charge
You change the air everywhere that you go
Something serene, you're a grand work of art
I breathe you in and my soul overloads

Have you ever had a love so good
Better than you've ever known
Make you wanna be a better girl
That would be us
Just some real communication
I'll listen gently to your heart
Love, I give it to you freely
'Cause you got my trust

I'm just sayin'
You can blame me
For this love
I'm just sayin'
You take the blame here
For this love, yeah

Honestly, I'm nervous
The way you sashay around in that lingerie is worth it
Worth every disagreement, you embody more than Earth shit
If we ain't right, I'll gladly take the blunt of what you come with

Ooh-ooh, uh
For this love, for this love, for this love, babe
For this love, I'm just saying
For this love, for this love, for this love, babe
I, I'm, I'm just saying
For this love, for this love, for this love, babe
I'm just sayin', I'm just sayin'
For this love, for this love, for this love, babe
For this love, mmm
I'm just sayin'

I'll take the blame
I'm just saying, woo
I'll take the, I'll take the blame for this love, for this love, for this love, babe
I, hey, I'm just sayin'
For this love, for this love, for this love, babe
Oh, I'm just sayin'
I, eh, mmm, I'm just saying
For this love, for this love, for this love, babe
