Yeah

Wait a minute, how you doing?

Why you're standing here all alone?

This ain't what I do, but what you drinkin' baby?

Let me get it for you, oh

What you do? What's your occupation?

Where you from? What's your new location?

Can I come over there tonight? So I can get to know you

Like I already do

We actin' like we don't know each other babe

'Cause it's one of those lil crazy things we do

We experiment to keep the fire burning

Wanna try something new, this is what you do

Baby, we role play

We role play

We role play

I can be whoever you need

We role play

We role play

We role play

Ah

Excuse me, sir, you dropped this

Haven't I seen you somewhere before?

Are you single? Are you married?

'Cause you look good to me

And I need to know, oh oh

Are you busy? What you're doing later?

Well how bout now? You wanna come over for tea?

You can come over here tonight

So I can get to know you, like I already do

We actin' like we don't know each other babe

'Cause it's one of those lil crazy things we do

We experiment to keep the fire burning

Wanna try something new, this is what you do

Baby, we role play

We role play

We role play

I can be whoever you need

We role play

We role play

We role play
