

Fame

Asking Alexandria

So you want fame?
Everybody in the world to know your name
How far will you go to outrun your pain?
I can take you away
Do you wanna play my game?

So you want money?
So much of the shit that it's almost funny
How much attention do you need
To fill the hole you feel?
Tell me, do you want money?

Well, light me up and watch me fly
I might change my mind a thousand times
But I'll get us there alright
Just light me up and watch me

So you want sex?
Anybody that you please, that you wanna fuck next
Take your pick 'cause they're champing at the bit to scratch your itch
So you want sex?

Well, do you wanna die?
Have the whole world fall apart, break down and cry
Do you think that'll stop the voices inside?
Telling you your whole life's a lie?
Telling you you're better off to die?
(Do you wanna die?)

Light me up and watch me fly
I might change my mind a thousand times
But I'll get us there alright
Just light me up and watch me

Roads of gold, going down
Enjoy the ride and let me in
Follow me all the way
Mark me down for everything

Roads of gold, going down
Enjoy the ride and let me in
Follow me all the way
Mark me down for everything
