

# Give You Up

## Asking Alexandria

I wasted so much time on wasting time  
Made a million excuses told myself I'm above it  
Now there's symphony where there used to be  
Nothing but silence and I'm never gonna give you up

Give you up, give you up, gi-gi-give you up  
Give you up, give you, give you, never gonna give you up  
Give you up, give you up, gi-gi-give you up  
Give you up

I never saw it coming  
Exactly what I said I never wanted  
I'm so used to running  
But something caught me in the headlights that night

Now I'm stuck, can't move, don't want to, so here I'll stay  
With a blinking of an eye I felt my whole life change

I wasted so much time on wasting time  
Made a million excuses told myself I'm above it  
Now there's symphony where there used to be  
Nothing but silence and I'm never gonna give you up

Give you up, give you up, gi-gi-give you up  
Give you up, give you, give you, never gonna give you up  
Give you up, give you up, gi-gi-give you up  
Give you up

It's got my colors showing  
Despite me always tryna keep them in  
I'm so used to knowing  
Who I am but with you it's like I'm someone new

And I'm stuck, can't move, don't want to, so here I am  
In a strange new place that I'd never imagined

I wasted so much time on wasting time  
Made a million excuses told myself I'm above it  
Now there's symphony where there used to be  
Nothing but silence and I'm never gonna give you up

Give you up, give you up, gi-gi-give you up  
Give you up, give you, give you, never gonna give you up  
Give you up, give you up, gi-gi-give you up  
Give you up

In my darkest of days  
I've got a light now to show me the way  
It's like I've found my place  
And the world doesn't feel the same

I wasted so much time on wasting time  
Made a million excuses told myself I'm above it  
Now there's symphony where there used to be  
Nothing but silence

I wasted so much time on wasting time

Made a million excuses told myself I'm above it  
Now there's symphony where there used to be  
Nothing but silence

And I'm never gonna give you up  
I'm never gonna give you up  
I'm never gonna give you up  
I'm never gonna give you up
