

# She Said So

Aslan

Bless me Father  
For I have sinned  
Save me sister  
from the mess I'm in  
Walk with me  
'Cause I think I'm lost  
I need an angel to hold my hand  
I need a lover like I need another friend

She said so, she said so  
And I won't let go  
She said so, she said so  
She likes it on her own

Got an easy face and a wicked smile  
Don't know what I see in her crazy eyes  
Love ain't made in heaven  
Like everyone says  
I need an angel to hold my hand  
I need a lover like I need another friend

She said so, she said so  
And I won't let go  
She said so, she said so  
She likes it on her own  
She said so, she said so  
She never loves alone  
She said so, she said so  
I need a lover like I need another friend

Baby says she loves me  
Says she loves me real bad  
Says she'd give me anything  
If I hold her hand  
Love ain't made in heaven  
Like everyone says  
I need an angel to hold my hand  
I need a lover like I need another friend

She said so, she said so  
And I won't let go  
She said so, she said so  
She likes it on her own  
She said so, she said so  
She'll never love alone  
She said so, she said so  
I need a lover like I need another friend

She said so, she said so  
And I won't let go  
She said so, she said so  
She likes it on her own  
She said so, she said so  
She'll never love alone  
She said so, she said so  
I need a lover like I need another friend  
She said so
