

## Let Me Go Home Whiskey

### Asleep At The Wheel

Let me go home whiskey, let me walk out that door  
Let me go home whiskey, let me walk out that door  
I got orders from my baby  
Not to come home juiced no more  
I stop by a fence to visit with a friend of mine  
I just dropped in for a minute  
But I over stayed my time

Let me go home whiskey, let me walk out that door  
Let me go home whiskey, let me walk out that door  
I got orders  
Don't you come home drunk no more

Why oh why does whiskey  
Make me lose my head  
Got me sitting at a bar  
When I should be home in bed

Let me go home whiskey, let me walk out that door  
Let me go home whiskey, let me walk out that door  
I got orders from my baby  
Not to come home drunk no more

Yeah whiskey every morning  
Whiskey every night  
As long as I got my whiskey  
Everything's alright

Let me go home whiskey, let me walk out that door  
Let me go home whiskey, let me walk out that door  
I got orders from my baby  
Don't you come home drunk no more
