

## Space Buggy

### Asleep At The Wheel

Scientists say, "There's man on Mars"  
My space buggy, don't go that far  
Don't go that far (because it don't go that far)  
It don't go that far (because it don't go that far)  
My space buggy, sure don't go that far

Small step for mankind, step for mankind  
When you driving by the buggy  
Don't pay no man, you don't pay no man  
(Because you don't pay no man)  
I don't pay no man (because she don't pay no man)  
When you driving by the buggy, sure don't pay no man

Well, I had a race with a meteorite  
My space buggy, it won that fight  
It won that fight (you know it won that fight)  
It won that fight (you know it won that fight)  
My space buggy, beat that meteorite

Rush hour traffic, I always miss  
Me and my buggy on top of this  
We're on top of this (you know we're on top of this)  
We're on top of this (you know we're on top of this)  
Take my word, you're on top of this

I got a guy caped Kennedy  
When he ride my buggy, he cries for real  
He cries for real (you know he cries for real)  
He cries for real (you know he cries for real)  
And when he drives my buggy, man he cries for real

It don't go that far  
It don't go that far  
It don't go that far  
It don't go that far  
My space buggy, sure don't go that far
