

## Your Down Home Is Uptown

**Asleep At The Wheel**

Well, they took you out of the country, honey, in a big old fancy car

And it wasn't nearly overnight, but you became a star

And that sweet love song you wrote me, well, it just hit number two

Your down home is uptown, boy, the country's outta you

Well, I just read in the paper, honey, how you made the Hall of Fame

And I've seen you on the TV with cute Miss What's-Her-Name

Well, all your fame and fortune does is tear my heart in two

Your down home is uptown, boy, the country's outta you

Uptown, where the lights are bright

And the girls' mind changes every night

Uptown, it's a different world

And you forget all about your down home girl

Now when the kids come home from school, they ask, "Is daddy home?"

And it's hard to face the preacher when he calls up on the phone

To try and understand your life is more than I can do

Your down home is uptown, boy, the country's outta you

Well, uptown, where the lights are bright

And the girls' mind changes every night

Uptown, it's a different world

And you forget all about your down home girl
