

# Death: The Only Immortal

Asphyx

Kali, Hel, Loviatar  
Santa Muerte, Marzanna  
Morrighan, Merau, Oyansa

Legends speak of reincarnation  
Resurrection, afterlife  
Truth be told by the presence in the shadows  
When our time has come to die

Nephtys, Mors, Mania  
Giltine, Dea Tacita  
Tia, Ixtab, Ereshkigal

Empress of darkness, queen of shades  
Legate of divine consciousness  
All creatures equal before her  
In the realm of forgetfulness

Yellow eyes weeping tears of blood  
For the devout and infidels  
Fools are we to mourn the dead  
We better cry for ourselves

Death, the only immortal  
Erasing all pain and misery  
Enthroned in a sphere of utter blackness  
Locks the universe when she leaves  
The most powerful of forces  
Welcome absolution  
Her caring embrace grants everlasting peace  
Eternal oblivion

Death descends  
Cold, loving kiss  
Everything ends  
The final bliss
