

## Incoming Death

Asphyx

Lethal contagious virus  
Transmittable bacteria  
The pandemic panic  
Become mass hysteria  
Overcrowded hospitals  
Scientists research in vain  
Constantly mutating plague  
Countless swollen remains

Incoming death  
Rapid it shreds  
Incoming death  
Mankind under threat!

Extraterrestrials arrive  
Enormous fleet  
No point in negotiating  
All they want is meat  
Commencing the bombardement  
These bastards play it rough  
Transporting cadavers  
To their ships above

Incoming death  
Alien jets  
Incoming death  
They need to be fed!

Lurid sounds on burial grounds  
Rising from the grave  
Swarming out over the earth  
Slaughtering in waves  
Stumbling, rotten corpses  
Feasting on human flesh  
The undead butchering all  
Those who are still fresh

Incoming death  
They rip and they shred  
Incoming death  
Zombies ahead!
