

# Into The Timewastes

Asphyx

Dive into the timewastes  
At the speed of light  
Robot mercenaries  
Elite for hire  
Galactic warriors  
Ancient as space  
Serving and protecting  
A weak organic race

Universal empires  
Face the ultimate threat  
Disturbance in order  
Time meets death  
Sensors activating  
Defensive shields  
Encountering chaos  
Disorientating fields

Confusing past and future  
The disappearing now  
Lost in unknown dimensions  
And returned somehow

Horizons of the present  
Blinding as stellar core  
A lonesome ship approaching  
Unleash the soundless war

Hives of brooding plasma  
Technology beyond  
Cohorts of sentinels  
Proton symbionts  
Silent screaming engines  
Systems overload  
Switching heavy weapons  
Onto genocide mode

Ultra-drastic measures  
Melting titanium  
Multiple holocaust  
With nuke ammunition  
Re-program protectors  
Amongst starving drones  
Objective stabilized  
In the timewastes zone
