It Came From The Skies

Through remote galaxies Beyond cosmic rays Unobserved phenomenon Traversing nameless space Outside the solar system Unidentified zones Hidden in Nebulae Composition unknown

Intruding explored cosmos The menace now exposed With hypervelocity And it spreads unopposed Atmospheric entrance Disaster imminent Gigantic collision Impact event

The surface penetrated High megaton yield Rotation mechanism disturbed Collapsed magnetic field

It came from the skies

Global eruptions Cracking crusts and plates Acidic waters Species disintegrate Re-entry of ejecta Radiation intense Ecology disrupted The Cenozoic era ends
