

# Name

Asrai

Years ago I found a letter, it wasn't mean for me  
But i've read the anger, your fear, the horror and agony  
Words I remember, now they're a part of me  
circle in my head and i can feel the pain  
It's my name  
The new life that you expected,  
you never heard them cry  
Our arms are empty,  
try to live with the lie  
Never taken seriously,  
You've lost it all, your family

I can't look straight into your eyes  
afraid of what I see  
No, you can't remember me  
And I asked myself, what hurts the most  
It's all in our name  
It's all in our name

Starring at you and try to look  
into your empty eyes  
You whisper words of madness  
What 's the world inside  
The life you lived so long  
you're alive inside you are dead  
Isn't there a way, what's the game to play

How long can you hold  
It's been so long to be afraid  
What are the swords they whisper  
Try to find a way, to let it all end  
It's all in our name  
It's all in our name

Want to hold you in my arms  
You're so close, so far away  
Goodbye, I told you so  
promising to be back soon  
A tear in my eye  
I know that i lied, I wished could do more

I'm no sorry, I'm no sorry  
Goodbye  
i'm no sorry
