

## Tragic Figure

### Assemblage 23

Once you had it all  
And threw it all away  
Day became your night  
Night became your day

Did it ever rain  
When the skies were clear?  
Does it help explain  
How you turned up here?

Peel away the layers  
Wash away the past  
Progress that you made  
Never seemed to last

Did it ever rain  
When the skies were clear?  
Does it help explain  
How you turned up here?

You are just a ghost  
You are just a shell  
You are just a shadow  
But it's just as well

Did it ever rain  
When the skies were clear?  
Does it help explain  
How you turned up here?
