

## Welcome, Apocalypse

Assemblage 23

Ghost town, not a soul in sight  
Empty streets and darkened lights  
Hello from doom  
Welcome, apocalypse

Contact only in a dream  
Faces on a tiny screen  
We'll see you soon  
Welcome, apocalypse

Welcome, apocalypse, what's taken you so long?  
Bring us the fitting end that we've been counting on  
Welcome, apocalypse, we've been expecting you  
We brought this on ourselves, now kindly follow through

Buildings boarded up in line  
Vestige of a normal time  
Those days are gone  
Welcome, apocalypse

Food lines stretch around the block  
Shelves bare empathy out of stock  
Try to hang on  
Welcome, apocalypse

Welcome, apocalypse, what's taken you so long?  
Bring us the fitting end that we've been counting on  
Welcome, apocalypse, we've been expecting you  
We brought this on ourselves, now kindly follow through

Unrest ignorance distilled  
Nihilistic imbeciles  
It's what we've earned  
Welcome, apocalypse

Return, workers to your hive  
Even if it takes your lives  
Nothing was learned  
Welcome, apocalypse

Welcome, apocalypse, what's taken you so long?  
Bring us the fitting end that we've been counting on  
Welcome, apocalypse, we've been expecting you  
We brought this on ourselves, now kindly follow through
