

I'm Yours

Assuming We Survive

Baby don't be so mad I swear that I'll make it up to you
It's up to you to let me prove to you I can
And if you stay I'll make your body shake in all the good ways
I want to hear you scream my name, want to hear you say

So good, it feels so good
I never thought you'd feel this way
I bet you never thought you could

With every breath, every smile, every stare
My heart is open
My body's yours I'll do what you want me to

This love I've chosen has left me broken
Bruised but not dead

Lately it feels like you don't care
I could write a book how you think I've let you down and name it "Life's Not Fair"
So if you stay I'll make your body ache in all the good ways
I want to hear you scream my name, I want to hear you say

With every breath, every smile, every stare
My heart is open
My body's yours I'll do what you want me to

This love I've chosen has left me broken
Bruised but not dead
This love I've chosen has left me broken
Bruised but not dead

So good, it feels so good
I never thought you'd feel this way
I bet you never thought you could

I bet that you want to know
How bad that I want it, I want it
I want it so bad
I bet that you want to know
How bad that I want it, I want it
I want it so bad

This love I've chosen has left me broken
Bruised but not dead
This love I've chosen has left me broken
Bruised but not dead
