

# Make It Out Alive

## Assuming We Survive

I've been picked upon, I've been pushed around  
I've been lifted up just to be knocked down  
I grew up abused, so let's watch as it all plays out  
I have made some friends that are now enemies  
Bad luck comes in waves, mostly 2s and 3s  
I can't count on my lucky stars, they're nowhere to be seen  
I guess it's just not meant to be

So when I make it out alive  
Yeah, I am gonna be the one to  
Tell you I'm alright  
I knew I would be, I knew I'd be all along  
When I make it out alive  
Yeah I am gonna be the one to  
Tell you I survived  
I knew I'd do it, 'cause I knew it all along

I'll keep my feet on the ground  
You keep your head in the clouds  
I'll take the punches as they come to knock me

Out of sight I must be out of my mind  
Who knew growing up is just like doing time  
Well I've done them both and I think I turned out just fine  
Just fine, just fine, just fine  
But what would you know of this life I've been given  
My parents they left me so broken  
And I'm trying my hardest to fix myself  
But I can't call on you, 'cause that's a cry for help  
And I won't

So when I make it out alive  
Yeah, I am gonna be the one to  
Tell you I'm alright  
I knew I would be, I knew I'd be all along  
When I make it out alive  
Yeah I am gonna be the one to  
Tell you I survived  
I knew I'd do it, 'cause I knew it all along

Oh yeah, yeah you know what they say  
If you cannot win the battle, live to fight another day  
If you've never been hurt then you've never known pain  
If you've never felt love then you'll never know hate  
I felt it all, felt the pain and the pressure  
Building inside me, more than I can measure  
You think that you're smarter, you think that you're clever  
You think that you're better, whatever, whatever

So when I make it out alive  
Yeah, I am gonna be the one to  
Tell you I'm alright  
I knew I would be, I knew I'd be all along  
When I make it out alive  
Yeah I am gonna be the one to  
Tell you I survived  
I knew I'd do it, 'cause I knew it all along

Oh yeah, yeah you know what they say  
If you cannot win a battle, live to fight another day  
If you've never been hurt then you've never known pain  
If you've never known love then you'll never know hate
