Circles

Asteria

There are faces carved
Across this empty ground
Inscribed for a reason
They’re just waiting to be found

And when I turn around
You’re no where to be found
I see right through your lies
We’re falling faster down
We're nowhere near the truth
I spent too much time with you
Now that we’re at the end
I’m falling faster down
(I’m running in circles, my head’s spinning)

Through this open sea
our minds swim free
across this crowded land
I know you’re waiting for me

And when I turn around
You’re no where to be found
I see right through your lies
We’re falling faster down
We're nowhere near the truth
I spent too much time with you
Now that we’re at the end
I’m falling faster down
(I’m running in circles, my head’s spinning)

Look at the sky above
Now look for your star
It reminds me of our love
It'll never be far

And when I turn around
You’re no where to be found
I see right through your lies
We’re falling faster down
We're nowhere near the truth
I spent too much time with you
Now that we’re at the end
We're falling faster down
(I’m running in circles, my head’s spinning)

And when I turn around
You’re no where to be found
I see right through your lies
We’re falling faster down
We’re falling faster down
We’re falling faster down
