

# Cold Showers

ASTN

Laying in your cars when the lights go [?]  
Dancing in the dark with you on my shoulder  
And I don't even know what you came here for  
All I know is I just want you closer

Yeah but it's all in my head  
Yeah I made a mess again  
Yeah I'm just the last one going  
Out the door without you

I take cold showers to remember  
I'm not with you  
I leave with someone else to act like  
I don't miss you  
I can't pretend I won't give in  
I hate myself for giving you  
The things I give you  
When I know that it's over

I'm starting to hate how this all played out  
'Cause you don't understand that I am trying  
And maybe I'm a mess but God knows how  
And I'd do anything to justify it

Yeah but it's all my head  
Yeah I made a mess again  
Yeah I'll be the last one seeing you  
For what I should be

I take cold showers to remember  
I'm not with you  
I leave with someone else to act like  
I don't miss you  
I can't pretend I won't give in  
I hate myself for giving you  
The things I give you  
When I know that it's over

I take cold showers to remember  
I'm not with you  
I leave with someone else  
Because I know I miss you  
I can't pretend I don't give in  
I take cold showers  
'Cause I'm not with you
