

CRUSH

ASTN

I think I got a little crush, crush
(Not again)
Thinking bout you way too much, much (I'm a fan)
And when you look at me that way
Makes me wanna change
I'm crushing, I'm crushing
Wish we were something

I think I got a little crush, crush
(Not again)
The thought of you gives me that rush, rush (I'm a fan)
And when you look at me that way
Makes me wanna change
I'm crushing, I'm crushing
Wish we were something

Hey baby
What do you say we spend some time away?
They know I'm crushing on you
Don't need no PSA
ASAP, somebody come and rescue me
Got a bad little thing, she testing me
Maybe it's just destiny, ohhhh

Say my name, say my name
No I'm never too far
Baby give me a call
We can talk about nothing
If you want to all night long
It's whatever you want

I think I got a little crush, crush
(Not again)
Thinking bout you way too much, much (I'm a fan)
And when you look at me that way
Makes me wanna change
I'm crushing, I'm crushing
Wish we were something
I think I got a little crush, crush
(Not again)
The thought of you gives me that rush, rush (I'm a fan)
And when you look at me that way
Makes me wanna change
I'm crushing, I'm crushing
Wish we were something

I been into cuties in some carhartt
Don't need on designer t-shirts
I prefer it when you regular
It makes the flirting easier
Mistakes dripped in Cartier

Don't know how you do it
How you do it if it ain't you
Don't know if I'd pursue it
The way you do what you doing
My mind's about to lose it

Baby you make me useless

I think I got a little crush, crush
(Not again)
Thinking bout you way too much, much (I'm a fan)
And when you look at me that way
Makes me wanna change
I'm crushing, I'm crushing
Wish we were something

She hit like 90s R&B
I get chills through my body, she robbin' me from my sleep
Don't know how to act when you're around
Baby has me weak
She like my favorite hobby, want her 7 days a week

I think I got a little crush, crush
(Not again)
Thinking bout you way too much, much (I'm a fan)
And when you look at me that way
Makes me wanna change
I'm crushing, I'm crushing
Wish we was huggin'

I think I got a little crush, crush
(Not again)
The thought of you gives me that rush, rush (I'm a fan)
And when you look at me that way
Makes me wanna change
I'm crushing, I'm crushing
Wish we was huggin'
