ASTN

Used to be someone else's  
I know that can make you jealous (yeah)  
But you ain't the one to blame  
Baby we're all the same  
Only thing I can say I got you

Tell me I'm acting reckless  
Put diamonds all on your necklace girl  
You know I won't hesitate  
Baby I'm on the way  
Only thing left to say is

You make it easy for me baby to feel new  
So believe me when I say that we'll get through  
Who would've thought that we'd come so far yeah you  
Make it easy for me baby

With you it's more than affection  
I think I got a confession  
Oh you is the one to blame  
For ever saying my name  
You scared I'm gon' run away  
That's not true

These feelings were unexpected  
What a blessing that we connected girl  
Yo mama said she approve  
Wanna give you a view  
Taking it to the moon

I know you feel some type of way  
You must be cautious  
I know it's real and baby  
You got other options  
Take a step and you got everybody watching  
But who am I to tell 'em stop it I got

You make it easy for me baby to feel new  
So believe me when I say that we'll get through  
Who would've thought that we'd come so far yeah you (yeah you)  
Make it easy for me baby

You make it easy for me baby to feel new  
So believe me when I say that we'll get through  
Who would've thought that we'd come so far yeah you (yeah you)  
Make it easy for me baby
