

Eighty Five 911

ASTN

Lost track of myself
Too in love with the money and the wealth
I was on one
Said they missing me I couldn't tell
85 911 moving swell

I've been keeping quiet moving stealth
Kinda getting good at being by myself
And I don't need nobody help beside the team
We been doing pretty well
And damn I gotta slow down
Gotta catch a flight just to visit home now
Wish I could see that kid more
She looking grown now
Another week gone by, I gotta go now

Still trippin'
Tryna figure shit out but who isn't
Back in high school I never fit in
Introverted but I swear I'll make a million

Lost track of myself
Too in love with the money and the wealth
I was on one
Said they missing me I couldn't tell
85 911 moving swell

Lost track of myself
Too in love with the money and the wealth
I was on one
Said they missing me I couldn't tell
85 911 moving swell

They would pretend to be somebody else
Wake up every morning still inside a shell
And I don't need nobody help
Beside my girl and she can handle that herself
And damn, it's so tragic
Moving to another state to sit in traffic
I used to sit up in my room and just imagine
Don't get me wrong, I love this city
But it's taxing, yeah

Still trippin'
Tryna figure shit out but who isn't
Back in high school I never fit in
Introverted but I swear I'll make a million

Lost track of myself
Too in love with the money and the wealth
I was on one
Said they missing me I couldn't tell
85 911 moving swell

Lost track of myself
