Far Away

ASTN

Sorry, you know words are kinda hard for me
When I'm not understanding what you want from me
And you don't hesitate to cry in front of me
I know you wish I'd do the same
Emotionally, I know that I'm out of reach
But you still try your best to get it out of me
We go back and forth, until you're 'bout to leave
You make me wanna do the same

Just when I think I got it right
I'm reminded it's not enough to try
But I'm tryin' to fix this overnight

It's just too far away
(Away, away, away)
You're just too far away (Away)
It's just too far away
(Away, away, away)
You're just too far away

You won't give me space, I gotta think it through
I won't ever run, unless there's reasons too
Thought you was the one, I still believe in you
I really wish you'd do the same
You lie awake and you think that I don't
I'm just afraid that I'll frame it all wrong
Envy the way that you say what you want
But what I want

It's just too far away
(Away, away, away)
You're just too far away (Away)
It's just too far away
(Away, away, away)
You're just too far away

Just when I think I got it right
I'm reminded it's not enough to try
But I'm tryin' to fix this overnight

It's just too far away
It's just too, it's just too
It's just too far away
Away
