Oh yeah
Oh yeah
Do me a favor
Baby don't get caught up in that bullshit
He gon' say he love you but I'll prove it
If you second guessing what you doing
Can you just do me a favor
Baby just be honest let's get to it
Is this really something worth pursuing
If you second guessing what you doing
Can you just

Tell me why you so afraid
Feel this change ain't no shame
You know I go all the way
Out my way for you
Babe what's wrong
He gon' do that for you so long
You ain't gonna put that front on so strong
Ain't gon' write a thousand love songs, so if you want

Do me a favor
Baby don't get caught up in that bullshit
He gon' say he love you but I'll prove it
If you second guessing what you're doing
Can you just do me a favor
Baby just be honest let's get to it
Is this really something worth pursuing
If you second guessing what you're doing
Can you just

I want you and nobody else
Nobody else, nobody else
Just you and me and nobody else, nobody else

Tell me why you so afraid
Feel this change ain't no shame
You know I go all the way
Out my way for you
Babe what's wrong
He gon' do that for you so long
You ain't gonna put that front on so strong
