

# Function

ASTN

The way that you walk in the room, girl, you making it harder to function  
Step on the scene, looking at me and my heart started jumping  
And they'll never get it 'cause baby they think it's just casual loving  
You better believe I ain't gonna leave on you all of a sudden

Sit around  
You don't do nothing but sit around  
Come over baby, just let me down  
Come over baby, I'll hold it down  
Yeah  
Sit around  
We don't do nothing but sit around  
Come over baby, I'll love you down  
Come over baby, I'll love you down  
Yeah

And you're so amazing  
When I think about you, I get so impatient  
And there's no replacing  
These feelings for you baby

'Cause you get whatever you want  
I'll get you Yves Saint Laurent, yeah  
Baby wherever you go  
I Gucci your head to your toe  
Now you get whatever you need, yeah  
Baby it's always on me, yeah  
Girl if you like what you see  
You know I'ma get it with ease

The way that you walk in the room, girl, you making it harder to function  
Step on the scene, looking at me and my heart started jumping  
And they'll never get it 'cause baby they think it's just casual loving  
You better believe I ain't gonna leave on you all of a sudden

Sit around  
You don't do nothing but sit around  
Come over baby, just let me down  
Come over baby, I'll hold it down  
Yeah  
Sit around  
We don't do nothing but sit around  
Come over baby, I'll love you down  
Come over baby, I'll love you down  
Yeah

And you're so amazing  
When I think about you I get so impatient  
And there's no replacing  
These feelings for you baby

I don't need nothing, I got you  
I couldn't leave if I had to  
Know I hate it when we're not together  
So when we together, girl, I have to  
  
Yeah, you got me oh yeah

If you thinking what I'm thinking  
Then let's make it happen  
Oh-oh-oh

The way that you walk in the room, girl, you making it harder to function  
Step on the scene, looking at me and my heart started jumping  
And they'll never get it 'cause baby they think it's just casual loving  
You better believe I ain't gonna leave on you all of a sudden

Sit around  
You don't do nothing but sit around  
Come over baby, just let me down  
Come over baby, I'll hold it down  
Yeah  
Sit around  
We don't do nothing but sit around  
Come over baby, I'll love you down  
Come over baby, I'll love you down  
Yeah

You're making it harder to function  
And this ain't no casual loving
