

# Moving Day

ASTN

Don't forget that box on the counter  
Full of empty promises we used to walk around 'em  
Ain't no use to put it to the side  
It's time to say goodbye  
It's moving day

Baby, don't forget that watch on the table  
So you can tell the time we spent together was unstable  
Ain't no use in trying again  
Let's cry 'til the end  
Of this moving day  
Moving day

'Bout time  
Oh, i  
Just wrap it up and move forward  
Who cares who's right?  
'Cause the truck's outside

Time to pack your things  
Get you shit arranged at your new place  
I hope there's space  
To fit that king-sized bed you made

You're too late  
It's moving day

Don't forget that plate in the kitchen  
'Cause you can really dish it out but you won't ever listen  
And you always trying to fight  
It's no wonder "Why?"  
It's moving day

Don't forget your things in the bathroom  
Nah. We can never iron out what we had to  
And if you think it's unfair  
The door's right there  
It's moving day  
Moving day

'Bout time  
Oh, i  
Just wrap it up and move forward  
Who cares who's right?  
'Cause the truck's outside

Time to pack your things  
Get you shit arranged at your new place  
I hope there's space  
To fit that king-sized bed you made

You're too late  
It's moving day
